STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION (Act of August 12, 1970: Section 3685, Title 39 United States Code)
 Date of Filing—October 1, 1999; Title of Publication—Retina: The Journal of Retinal and Vitreous Diseases; Frequency of Issue—6 times per year;
 Annual Subscription Price—\$149.00; Location of Known Office of Publication—12107 Insurance Way, Hagerstown, MD 21740; Location of the
 Headquarters or General Business Offices of the Publisher—227 East Washington Square, Philadelphia, PA 19106; Publisher—Lippincott Williams
 & Wilkins, 227 East Washington Square, Philadelphia, PA 19106; Editor—Alexander J. Brucker, MD, P.O. Box 67, Gladwyne, PA 19035; Managing
 Editor—Terry Rothstein Brucker, P.O. Box 67, Gladwyne, PA 19035; Owner—Ophthalmic Communications Society, Inc., P.O. Box 67, Gladwyne,
 PA 19035; Known Bondholders, Mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages,
 or other securities—none. A. Total no. copies printed (*net press run*), average 3363, actual 3100; B. Paid circulation, 1. Sales through dealers and
 carriers, street vendors and counter sales, average none, actual none; 2. Mail subscriptions, average 2412, actual 2279; C. Total paid circulation,
 average 2412, actual 2279; D. Free distribution by mail, carrier or other means: Samples, complimentary, and other free copies, average 200, actual
 246; E. Total distribution (*sum of C and D*), average 2612, actual 2525; F. Copies not distributed: Office use, leftover, unaccounted, spoiled after
 printing, average 751, actual 575. Returns from news agents, none; G. Total (*sum of E and F—should equal net press run shown in A*), average 3363,
 actual 3100. I certify that the statements made by me above are correct and complete. Abbe Nelson, *Manager, Periodical Operations*.

Abstracts

- clinicopathologic correlations of surgically excised type 1 and type 2 submacular choroidal neovascular membranes, 484
 - macular translocation for subfoveal choroidal neovascularization in age-related macular degeneration: a prospective study, 483
 - pneumatic displacement of subretinal hemorrhage without tissue plasminogen activator, 484
 - retinotomy and foveal translocation for surgical management of subfoveal choroidal neovascular membranes, 482
 - submacular surgery for subfoveal choroidal neovascular membranes in patients with presumed ocular histoplasmosis, 481
 - tissue plasminogen activator-assisted surgical excision of subfoveal choroidal neovascularization in age-related macular degeneration: a randomized, double-masked trial, 481
 - translocation of the retina for management of subfoveal choroidal neovascularization II: a preliminary report in humans, 482
 - transplantation of autologous iris pigment epithelium to the subretinal space in rabbits, 483
 - transplantation of RPE in age-related macular degeneration: observations in disciform lesions and dry RPE atrophy, 482
 - visual results after submacular surgery for neovascularization in age-related macular degeneration, 481
 - whether to invade the macula, 480
- Acetazolamide, effect of intraoperative acetazolamide on postoperative IOP in gas-filled, vitrectomized eyes, 185
- Acute posterior multifocal placoid pigment epitheliopathy, in Wegener's granulomatosis, 309
- Adjuvants, efficacy of vitreoretinal surgery without adjuvants in closure of traumatic macular holes, 405
- AIDS (acquired immunodeficiency syndrome). *See* HIV/AIDS
- Anastomosis, retinal-choroidal vascular anastomosis, in presumed parafoveal telangiectasis, 332
- Anesthesia, regional, "needleless" regional anesthesia via sub-Tenon's infiltration, 291
- Aneurysm, regression of retinal arterial aneurysms in IRVAN, 250
- Angiitis
 - frosted branch angiitis complicated by retinal neovascularization, 454
 - retinal vasculitis with frosted branch angiitis-like response due to HSV type 2, 455
- Angiogenesis, correlation of vitreous TPA and plasminogen activator inhibitor levels with vascular endothelial growth factor in proliferative diabetic vitreoretinopathy, 383
- Animal studies
 - antibiotic prophylaxis of postoperative *Staphylococcus aureus* endophthalmitis (rabbit), 223
 - ciprofloxacin clearance from vitreous cavity in traumatized-infected eye (rabbit), 127
 - ciprofloxacin penetration into inflamed eyes (rabbit), 218
 - free radical generation following pressure-induced retinal ischemia (rat), 255
 - histologic changes induced by silicone vs. hydrogel encircling scleral buckle elements (rabbit), 148
 - implantation of epiretinal microelectrode arrays (rabbit), 546
 - ocular tolerance of perfluoro-n-octane and perfluoroperhydrophenanthrene mixture (rabbit), 230
 - posterior vitreous detachment induced by injection of plasmin and sulfur hexafluoride (rabbit), 55
 - retinal toxicity of intravitreal clarithromycin (rabbit), 442
 - safety of repeated intravitreal injections of antibiotics and dexamethasone (rabbit), 437
 - therapeutic efficacy of liposomal 1-O-octadecyl-sn-glycerol-3-phosphonoformate in herpes retinitis (rabbit), 325
 - toxicity of intravitreal drugs in silicone oil-filled eye (rabbit), 553
- Anterior ischemic optic neuropathy, arteritic vs. nonarteritic, ICG vs. fluorescein angiography, 131
- Anterior segment, necrosis, in *Streptococcus pneumoniae* meningitis, 163
- Antibiotics

- intraocular ciprofloxacin, clearance from vitreous cavity in traumatized-infected eye (rabbit), 127
 in irrigating fluid, prophylaxis of postoperative *Staphylococcus aureus* endophthalmitis (rabbit), 223
 oral/topical ciprofloxacin, aqueous and vitreous penetration (rabbit), 218
 retinal toxicity of intraocular clarithromycin (rabbit), 442
 safety of repeated intraocular injections of antibiotics and dexamethasone (rabbit), 437
 Aqueous humor, ciprofloxacin penetration in inflamed eye (rabbit), topical/oral administration, 218
 ARMD. *See* Macular degeneration, age-related
 Arterial loops, prepapillary, 474
 Arteriovenous crossing, sheathotomy, for surgical decompression of branch retinal vein occlusion, 1
Aspergillus spp., antimicrobial activity of silicone oil in vitro, 122
